

Archangel Michael Speaks Channeled by Jeff Fasano

A Message for March 2025 Who Are you Being?

From the Archangelic Realm of Michael this is Michael and We come to you as you open your heart space and move into who you are being. As you move into your month of March, the question We have for you is, Who Are You Being? Who are you being in this moment in time in the evolutionary process of the earthly plain and your soul path? Who are you being as you move into the depth and breadth of your heart space embodying the Christ Consciousness of peace, community, harmony, equality and love?

We said to you when We came to you at the beginning of your year 2025 in your month of January and in the last three months of your year of 2024 beginning in October, energies from multi-dimensional realms entered your earthly plain and solidified itself, balanced in checks and balances and equalization. And as We said to you the last time We came to you, We will be coming in to check where you are in your evolutionary process. Check where you are in relationship to what is transpiring in your third dimensional realm outside of you as you move through the shadow period in the evolutionary process of the earthly plain.

It is most important to understand and keep in mind it is about the evolutionary process of the earthly plain. About your evolutionary process in the physical human body in your human incarnation. As We said to you before, the process is perfect. It is about how you move into the process and navigate the process. Navigating your process by having all of your feelings and releasing the trauma and the pain surrounding that trauma.

We come to you at this wonderful and most glorious time as you begin your month of March in your year of 2025 and ask yourself, Where are you? Who are you being? Are you being the beacon of white light that is shedding light on and illuminating the shadow on your earthly plain as you illuminate the shadow within you?

We said to you in your last month of February that We will be bringing you tools to navigate what is transpiring in your third dimensional realm. The question We have for you again is, Who are you being? What are you being? Are you being a beacon of white light of the Christ Consciousness of peace, love, community, harmony and equality and all-inclusiveness? As you look outside of yourself in the third dimensional realm at what is transpiring in it in the shadow period of this evolutionary process, who are you being and how are you responding or reacting to it? Where are you focusing your attention and intention? The intention being peace, community, harmony love, equality and now all-

inclusiveness. Where are you being all-inclusive? Even including quite possibly those who do not think as you? That is the challenge of the Christ Consciousness. Once again We tell, ask you, implore you to have your feelings as they are triggered from outside of you. Yet, once again the question We have for you is, are you allowing what is transpiring outside of you in the third dimensional realm affecting the way you live your life?

We implore you once again, it is about self powerfulness, the powerfulness of the self. Moving into who you are being in the greatness of the self at a high vibrational level of the Christ Consciousness so you can look at what is transpiring in the third dimensional realm and ask yourself, how is this affecting me? This is another tool We are bringing you. Ask the question, how is this affecting me? It is affecting me in the depth and breadth of my heart space? Is it affecting the powerfulness of me?

What We are speaking about is not how it is affecting you in the third dimensional realm outside of you in the human condition. We are asking you how is it affecting you in your soul space, in your heart space? How is it affecting you and the powerfulness of you? Are you looking at what is transpiring in the third dimensional realm outside of you and are you felling powerless? Are you feeling powerless? The only way in which you can stand above the fray, stand above the low vibrational energies of the third dimensional realm is to stand in the powerfulness of you. Honoring, valuing and loving who you are. We ask you again, who are you being?

As you move into the month of March ask, who am I being? Am I focusing my attention and intention on what is transpiring in the third dimensional realm outside of myself? The low, dense vibrational aspects of the third dimensional realm. Or am I focusing my attention on the high vibrational aspects of it? The high vibrational aspects of relationships that I am having with the wonderful and most glorious souls outside of myself. The high vibrational aspects of me. Of who I am. Of who I am being.

We reiterate again, the congregation of the soul family. Like-minded individuals coming together as adults, being who they are in the Christ Consciousness of self of peace, community, harmony, equality, love and We add all-inclusiveness. It is now time if you so choose to congregate with like-minded individuals to raise the resonance and vibration.

Once again We are asking, are you opposing what is transpiring outside of yourself? Which is the direct reaction to what is transpiring outside of yourself that affects and triggers you inside of you. Triggers feelings that come to the surface. Thereby allowing the feelings to surface, having those feelings, processing those feelings, releasing the charge of the energy that are attached to those feelings. And then responding through the Christ Consciousness of peace, community, harmony, equality, love and equality. Thus creating an individuated aspect of your life's path and congregating with the soul family. The new soul family.

In many ways it is about coming together within yourself and coming together with those outside of yourself at a high vibrational aspect of life in the Christ Consciousness of peace, community, harmony, love, equality and all-inclusiveness.

We ask you in your month of March to look at all-inclusiveness. Where are you challenged with all-inclusiveness? With including all? The challenge is in the human condition. In the soul condition it is about the Christ Consciousness of peace, community, harmony, equality, love and all-inclusiveness. It is not about separating and isolating yourself from those outside of yourself that may trigger the depth and breadth of your wounding and the trauma within. It is about discerning what relationships resonate and vibrate for you and what relationships do not. Thus, not placing judgment on those who no longer resonate and vibrate with you. Simply moving to a new level of resonance and vibration in the soul space in the Christ Consciousness of love, peace, community, harmony and equality.

These are the tools We bring you. The tool for March is all-inclusiveness. The tool is asking yourself, who am I being? Am I being peace, love, community, harmony, equality? Am I focusing my attention and intention on the lower vibrational aspects of the third dimensional realm? And how is that affecting me in the depth and breadth of my heart space? Affecting me in the depth and breadth of the powerfulness of self? The only way in which to rise above the low, dense vibrational aspects of the third dimensional realm and the shadow aspects of what is transpiring in the evolutionary process of the third dimensional realm is to move into the depth and breadth of the powerfulness of you. It is why for many millenniums We have been asking you how much do you love, honor and value you? When you love, honor and value you and raise your resonance and vibration, you move into a powerfulness of self that cannot be matched. It can only be congregated with others in the powerfulness of self. It is not the powerfulness over any and wonderful most glorious soul outside of yourself. It is not looking at any wonderful and most glorious soul outside of you as less than or greater than you. It is about equality. It is about checking and balancing. It is about loving, honoring, and valuing you so you can love, honor and value another exactly where they are in their evolutionary process in their soul plan.

Open your hearts. Open your hearts to the wonderful and most glorious souls around you at a high vibrational aspect and look at what is transpiring in your world so you can transcend what is transpiring in your third dimensional realm through the Christ Consciousness of peace, community, harmony, equality, love and all-inclusiveness.
